WEEK

Climate change adaptation and water: UNDP priorities and actions

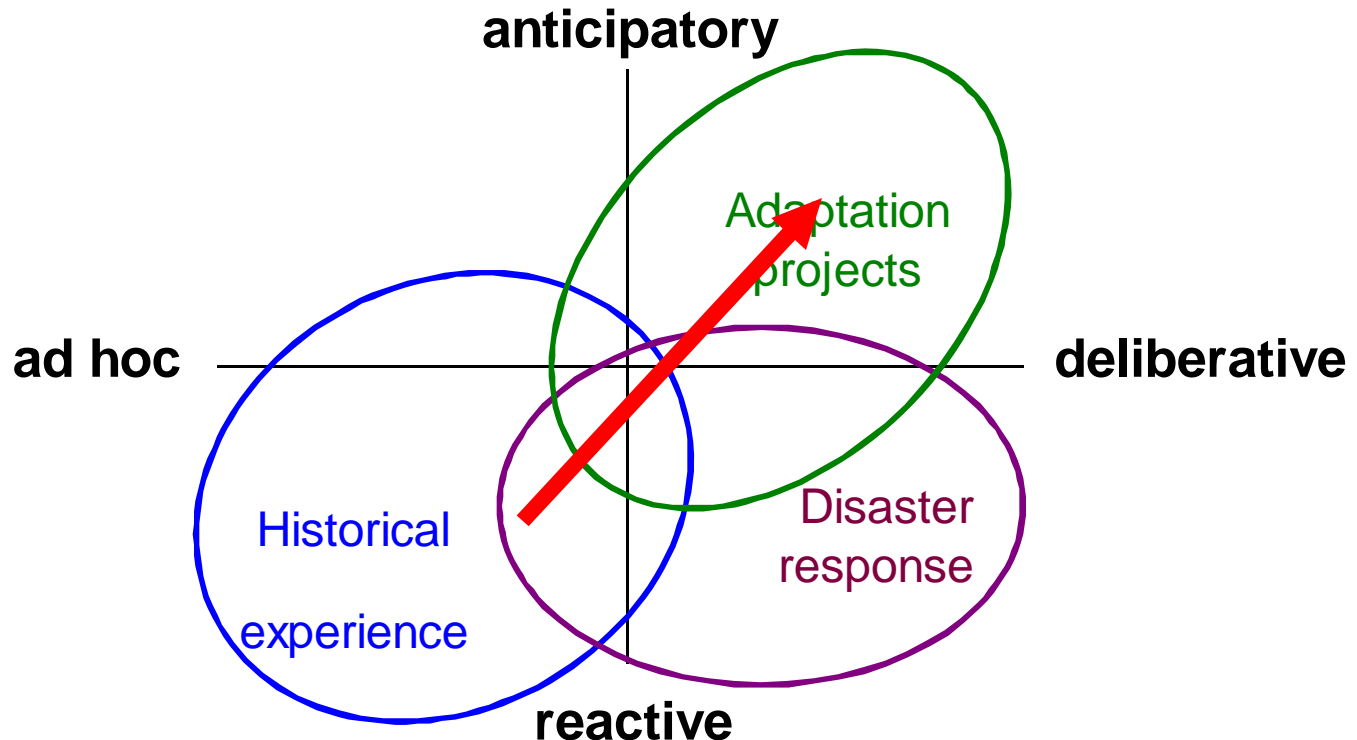

Joakim Harlin

Senior Water Resources Advisor
Water Governance Programme

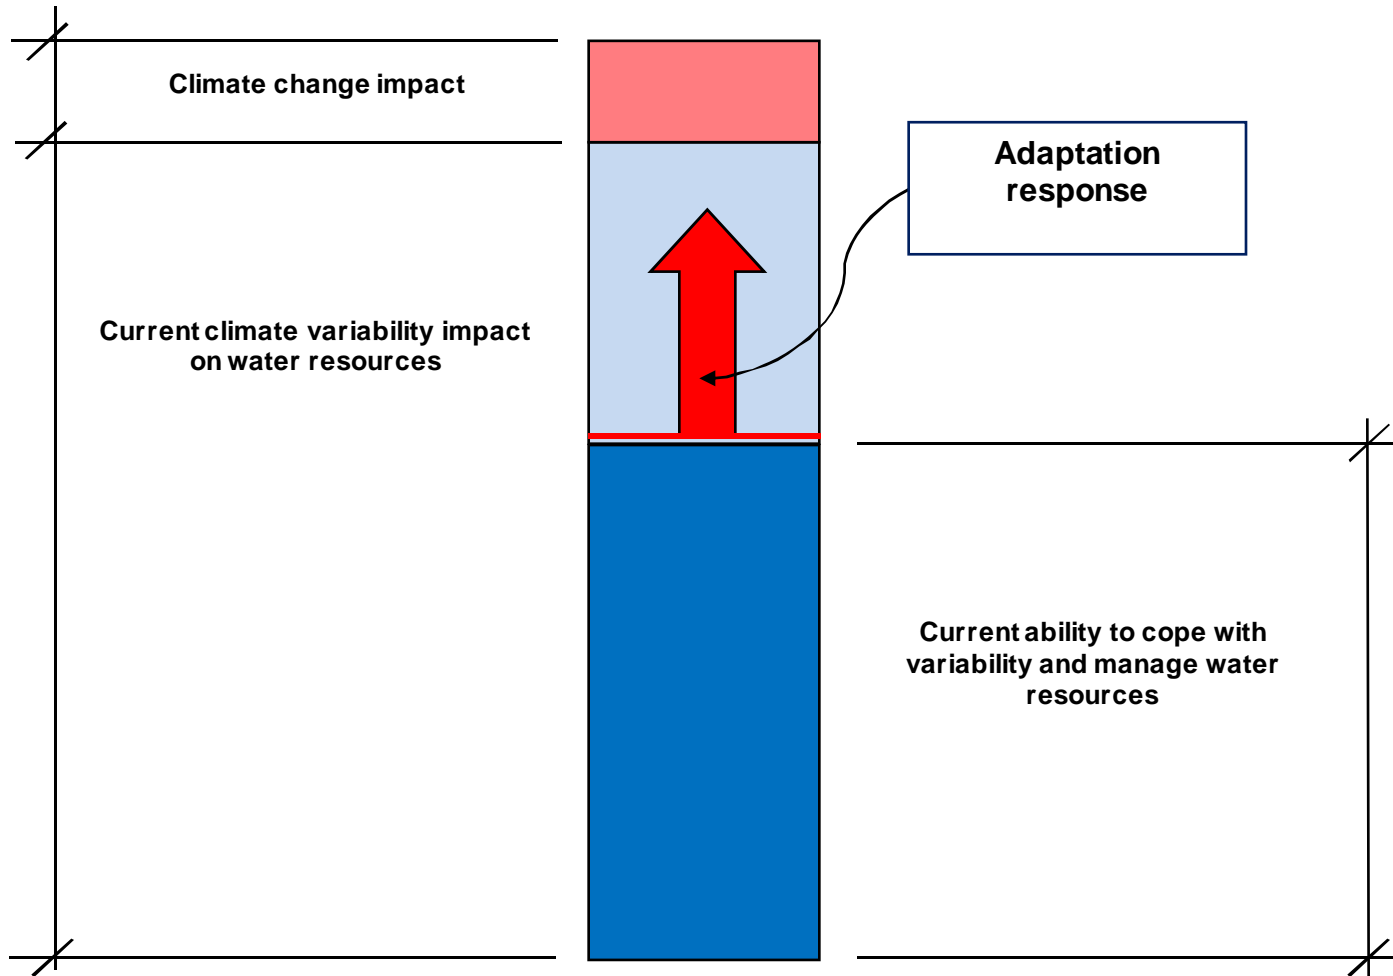

Supporting Adaptation

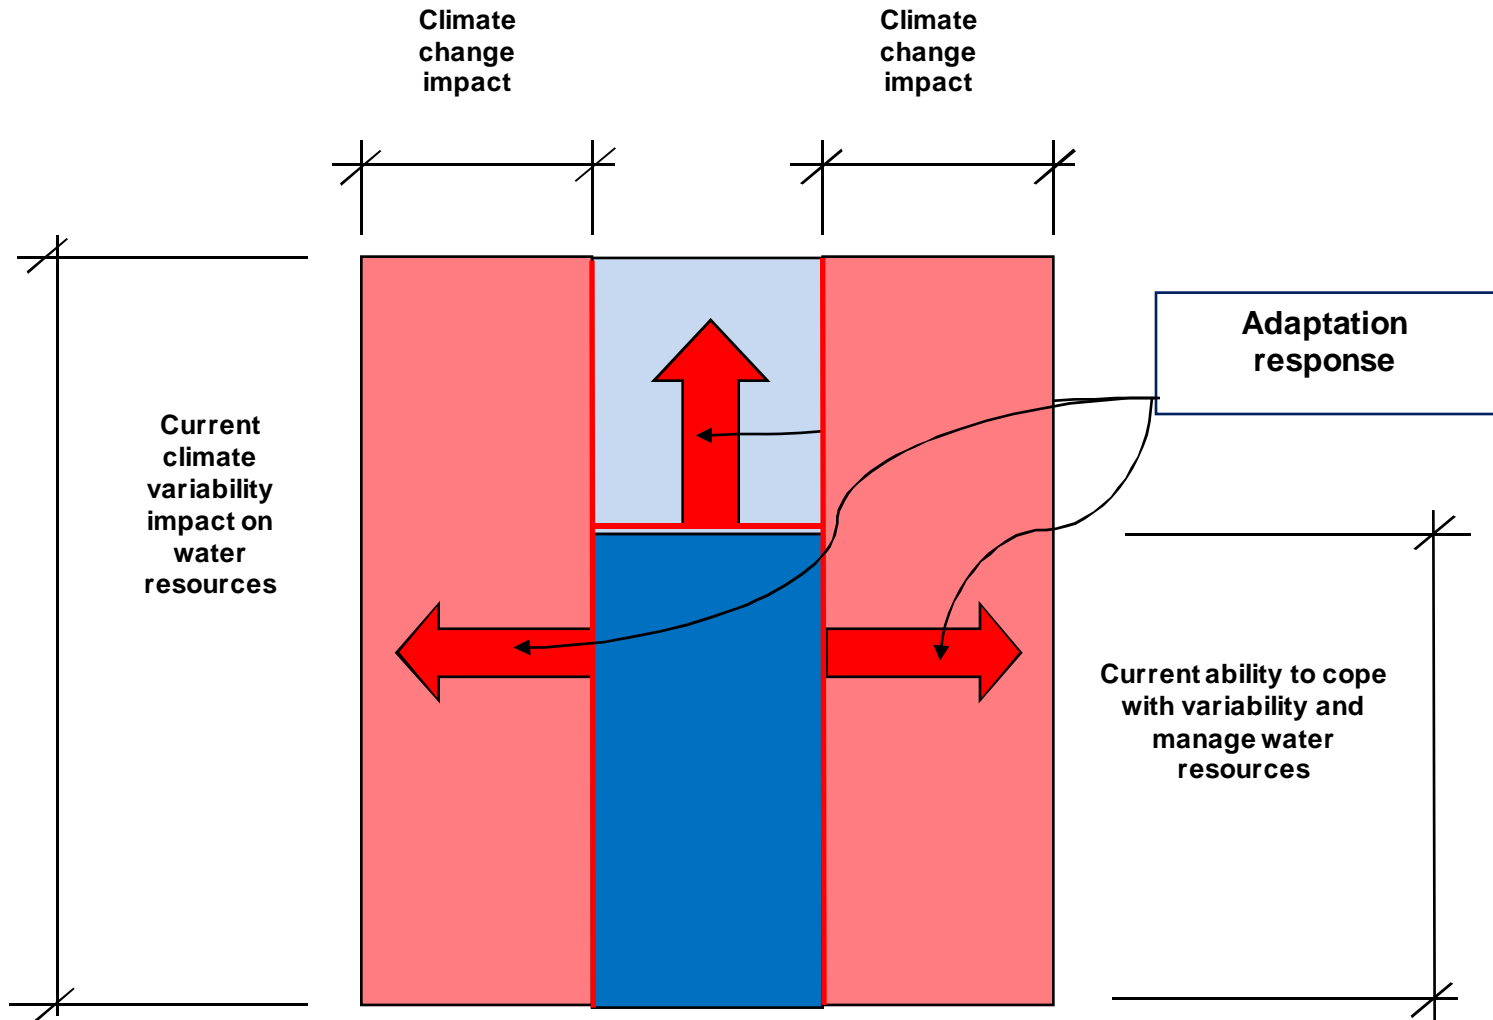

Through adaptation interventions we are attempting to move from reactive and *ad hoc* toward **anticipatory & deliberative** adaptation

No-regrets

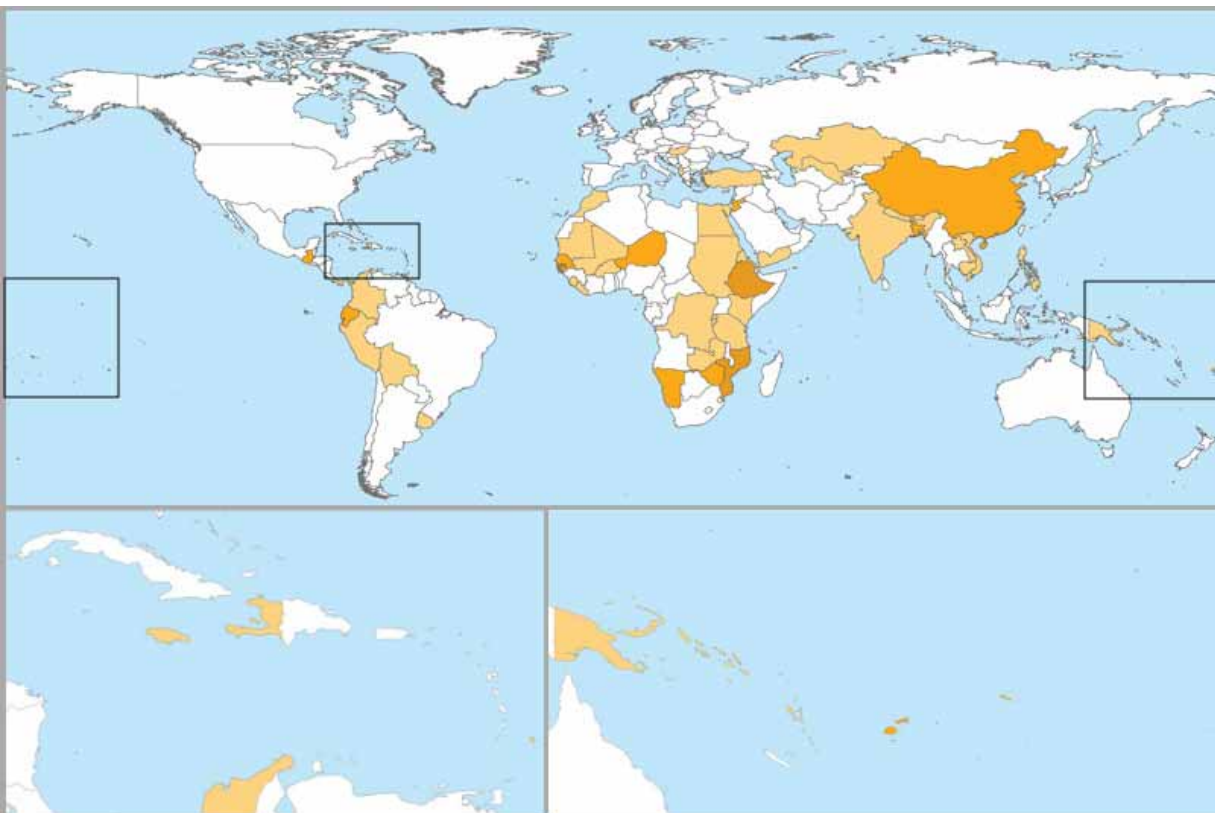

Paradigm Shift

UNDP Supports Adaptation Projects in 58 Countries

Approx 60 water related adaptation projects

Total portfolio: 200 M USD

approximately 70%
of total portfolio is in
Africa

UNDP's Adaptation Project Portfolio

SCCF, LDCF, SPA, MD

Close-ups: Caribbean, F

Multiple Sources of Funding:

- SCCF = US\$ 26M
- LDCF = US\$ 52M
- GEF-SPA = US\$ 16M
- MDGF (Spain) = US\$ 22M
- Africa Adaptation Prog. (Japan) = US\$ 92.1M

TOTAL = approx. US\$200M

For CC-Water UNDPs role is to:

- Raise awareness of water and climate issues and integrate climate change consideration into water governance reform, participatory scenario planning and capacity building for WRM & WSS**
- Enhance national capacities in the developing countries to mainstream climate change into water resource management and decision making processes**
- Assess financing requirements, sources and flows for adaptation response measures**

UNDPs role, cont.

- **Support vertically integrated development, coordination and implementation of water related CC adaptation strategies – transboundary, national, local scales.**
- **Capacity building and knowledge management.**
- **Facilitate a coordinated UN system support at national level**
