

Programme Overview

The overview below shows the activities that take place each day and the page they can be found on in this Programme. Plenary sessions (in grey) open and close the week with keynote speeches, panel debates and cultural activities. Workshops (in blue) are initiated by SIWI, the World Water Week host, and have programmes developed through an

open abstract submittal process. Seminars (3 hour sessions coloured orange) and side events (1 hour sessions coloured green) are initiated by different convening organisations, who develop their own programme content and format. Prize award ceremonies, social events and field visits (in purple) comprise an important part of the week.
